

## 28 50 A YEAR

R. J. O'LEARY  
PROMOTOR

\_\_\_\_\_

THE PRINCE ALBERT TIMES  
WEDNESDAY, MARCH 23, 1883.

**AN IMMIGRATION ROOM.**  
From statements made in various English and Canadian papers we are led to believe that the immigration to the North West this year will far exceed any similar movement that has hitherto taken place. Not only are we to have, by all accounts, a greatly increased number of settlers, but numbers of those who have made up their minds to make the North West their future home will bring with them no inconsiderable means. No one denies the advantage of capital, although it may not be the only requisite, and the more capital we can get into this new country so much the sooner will its great natural resources be developed. There are homes for millions, and there need be no fear of our crowding for many years to come. With a large immigration of the right sort, the prosecution of the Canada Pacific work, coupled with the building of branch lines and the development of our mineral resources, the present year promises to witness, before its close, gigantic strides made by the North West in the march of progress.

**EDITORIAL NOTES.**  
In the general elections recently held in Ontario the Mowat Government has been sustained by a majority of thirteen. The Bill incorporating the Quebec and Prince Albert Railway Company has passed its second reading in the House of Commons. We understand that instructions have been received from Ottawa by the Dominion Land Agent here to withdraw from sale all old numbered sections. For what reason this is done we cannot guess. The New Brunswick Government has been defeated on a want of confidence vote and speculation is rife whether the House will be dissolved, or the leader of the Liberal Opposition will be called on to form a new Cabinet.

The town of Portage la Prairie has offered the Portage, Wellhouse and North-western Railway Company \$5,000 in lieu of any land bonus. Should the company accept the offer, they will have to purchase all the land they required. As eighty acres at least will be required for yard accommodation and on which to erect workshops, &c., the offer is not regarded with much favor by the directors of the company, as it would cost about \$50,000 to purchase the land required.

In the House of Commons in moving for correspondence and memorials relative to the grievances of Prince Albert settlers, Mr. Blake severely condemned governmental delay in granting settlers in the Northwest, the patents to their lands. Sir John Macdonald said it was impossible to survey all settlements made by squatters in various parts of the Northwest, which may be true, but it does not meet the case. Why are there such vexatious delays in getting titles to lands already surveyed and put in the market? When private parties offer lands for sale, they are usually ready to give title forthwith. There is no good reason why the Dominion Government should not be equally prompt. If it is as much in earnest as it professes to be about the settlement of the Northwest, it should provide every facility for the speedy acquisition of titles.

I. H. Brock, of Ottawa, will start a paper at Moose Jaw. Fogarty Bros., Montreal, boots and shoes, have suspended. Mayor McMicken, of Winnipeg, has returned home from the East. A dress rehearsal of the Passion Play at New York on Saturday was prevented by the arrest of Saint Morse, the manager of the performance. Mr. Gladstone will return to London next week. He is said to have found a complete justification of his Irish policy in the prosperity of the tillers of the soil in France. The Bishop of St. Alban's becoming alarmed at the long continuance of rain-fall, has made the conclusion that Providence is offended. He has therefore exhorted his archdeacons to pray. The imports into Canada for January show a large increase over the corresponding month of the previous year, and the exports from the Dominion show a decrease of considerably over half a million.

Calgary is on the boom. The land has all been taken up within ten miles of the town. It will be the terminus of the C. P. R. till the road is through the Rockies. It will likely rival Winnipeg in the middle of its growth.

Our columns will be open to correspondence upon any subject of general or local interest provided that the communications are brief, plainly written on one side of the paper, and are free from personalities of any kind, and are not couched in offensive language. We are determined that the columns of the Times shall be free from anything that could offend the most fastidious reader, and to this rule we intend to adhere most strictly. All communications must be accompanied with the name of the writer, which of course will be in confidence; otherwise they will be summarily consigned to the waste basket. We do not undertake to return rejected MSSs.

#### THE COMING ELECTION.

To the Editor of the Times.

Sir, Will you kindly allow me space for a few remarks in the Times. With regard to the meeting held at Mr. Fox's last week, it has been said that Mr. Macdonald, his supporters and that Mr. Porter and all others were present. Mr. Macdonald did admit that he is the number of speakers. Mr. Porter certainly had the advantage of him at the meeting. I would ask the electors that were there if there was any speech made by the Doctor or any of his supporters that would influence between to vote for him, if so, would say it does not take much to influence some. If the following that was shown there would it was it the Doctor's own speech, was commenced by saying something that he intended saying, and saying that, or was it the next, who told us in the first place that he had no intention of doing so? I would ask Mr. Macdonald and his friends the greatest respect in the world. What I would like to know is what he said about himself in the first place. We do not wish to see a man with capital come here. Have they any right to invest it? Has it not been a benefit to Prince Albert? Some would have us believe that it is not. Forgive if they had seen the value of capital, before it came, they would be a little more liberal minded. As to the other time, who has a better right than them to the surprising firm that makes them. Such arguments as these, and were, were brought up for our education. No doubt they received credit on their great intelligence. The next time to address a meeting on another person's house would not be more, he only turns his back. Mr. Fox, as a candidate, has a right to say, as he said, that he is not for our votes, as he is not a supporter of Mr. Porter being in the Doctor was a workman and a laborer. He said so in how to edit a paper. Take it all through it was a great loss. Allow me to remark that Mr. Porter's friends have no intention of an escape from their work to attend to a rehearsal of all their hard feeling, accumulated from other meetings. Will not go further than to say that Mr. Macdonald and his friends, a number of supporters there, as the feeling day was over. Would suggest that the Doctor and some of his supporters should on a special meeting in town and work on some of their feeling and not be in the way of others. Where there is no such thing as a free lunch, let me say, I would say that I was to be represented in a straightforward manner to vote for Mr. Macdonald without fear or favor.

W. H. BENTLEY.

To the Editor of the Times.

Sir, It has been repeatedly asserted by the supporters of Mr. Macdonald that the paper caused the loss of the election. Before it was issued, was said to be by Mr. Porter's committee and was approved by him and its publication authorized by him. I would say that it was not a committee, but a man, and that the paper was not submitted for his approval. Mr. Porter's committee, but was not authorized to submit it. It was printed when Mr. Porter was away on the tour, and he did not see it until it was too late. I would say that it was not a committee, but a man, and that the paper was not submitted for his approval. Mr. Porter's committee, but was not authorized to submit it. It was printed when Mr. Porter was away on the tour, and he did not see it until it was too late.

Dr. Porter's Local Committee.

To the Editor of the Times.

Sir, In your last issue you compare to repeat the following, which I have several times referred to. I stated on the public columns that you had taken the liberty of anything published by me. I would say that it was not a committee, but a man, and that the paper was not submitted for his approval. Mr. Porter's committee, but was not authorized to submit it. It was printed when Mr. Porter was away on the tour, and he did not see it until it was too late. I would say that it was not a committee, but a man, and that the paper was not submitted for his approval. Mr. Porter's committee, but was not authorized to submit it. It was printed when Mr. Porter was away on the tour, and he did not see it until it was too late.

The foregoing came to the office just in time—it was not "too late" nor is it "too long." We publish it willingly and will be glad to hear from the Doctor, again. A few more of the kind would leave the Doctor without a word or second of his nomination. We should hardly like to see his reputation so low, but we can't help it. We won't charge the Doctor a cent to publish his list of supporters. In the interests of the public we will publish it free.

The land office has been removed from Troy to Regina. There is a rumor of removing it from Regina to Moose Jaw.
